

# SPECIALIZED BLEEDING CONTROL READINESS TRAUMA PACKS

Developed for Civilians and Emergency Responders to address traumatic bleeding situations.

In response to increased violence and mass casualty events, and in keeping with our theme *"When Every Second Counts,"* Code Kit PRO has developed individual Bleeding Control readiness kits for life-threatening blood loss treatment.

In an emergency situation you need items which are instantly identifiable and ready for immediate use. We offer specialized bleeding control kits at affordable prices and tiered options based on your role and likelihood of special need.

## **"Bystander" Bleeding Control Trauma Pack\***

For personal preparedness and general public readiness, we offer a basic Bystander kit which includes all the essentials: gloves, scissors, gauze, larger dressings, a Coban-type wrap, a tourniquet and a zippered pouch with illustrated instructions.

MSRP - \$38.00

*\*Trauma Packs are available in a clear poly or black nylon pouch*

## **"PRO" Bleeding Control Trauma Pack\***

Our "PRO" package includes all of the items in our Bystander pack plus hemostatic gauze for wound packing, preferred by medical and paramedical professionals.

MSRP - \$87.00

*\*Trauma Packs are available in a clear poly or black nylon pouch*

## **"PRO-CS" Bleeding Control Trauma Pack\***

Our "PRO-CS" package includes all of the basic essential items plus hemostatic gauze for wound packing and a chest seal for penetrating thoracic injuries. This option is often the choice of police, security personnel, hunters and CCW permit carriers.

MSRP - \$117.00

*\*Trauma Packs are available in a clear poly or black nylon pouch*

MSRP - \$17.25

**WITH CODE KIT PRO YOU ARE REALLY READY ... WHEN EVERY SECOND COUNTS!**

## HELP SAVE A LIFE

*Death can occur from blood loss within minutes. Untrained bystanders can help to stop bleeding.*

*Instructions for Bystander Trauma Pack*

### 1 CALL 9-1-1

**FOLLOW THESE STEPS TO HELP STOP THE BLEEDING** until paramedics arrive.

### 2 GLOVES

**PUT ON GLOVES.** Use scissors to cut away clothing to **FIND BLEEDING SOURCE.**

### 4 WRAP

**WRAP TIGHTLY.** Wrap tight enough to stop blood from soaking through.

### 3 PRESSURE

Place **GAUZE PADS** on wound. **PRESS HARD & HOLD.**

### 5 TOURNIQUET\*

*For arm or leg wounds*

**IF STILL BLEEDING,** place tourniquet on limb above wound. **TWIST HANDLE TO TIGHTEN.**

\*A properly applied tourniquet will hurt A LOT and is necessary to be effective.
